SUMMARY OF ST. LOUIS MARKETS.

There was the shadow of strength in wheat and the substance of weakness in corn in yesterday's market.

At the opening cables were weak, and it appeared that the long-expected foreign demand was to be staved off yet awhile, but later there were reports of good European inquiries. This, coupled with light receipts and a good cash demand, strength-

ened the market for wheat, and the close was at slight advance.

Corn did not share the upward movement. So far as could be judged from the comparatively small amount of trading, the weakness was largely due to liquidation on the part of small traders, who had bought for quick returns. News of rains in

Sept. wheat opened is to is lower than Wednesday's close, and Dec. showed the same decline. Late buying caused a rally and the Sept. option closed is up and Dec. was firm with a bid on the basis of Wednesday's closing quotations.

Corn was weak from the start, Sept. opened % below Wednesday's close and Dec.

was 15c off on the first trade. Sept. closed 75c off and Dec. 75c off.

At the close the tone of the market was good, and, with a fair foreign demand, it predicted, better prices are to be looked for.

Trading was not heavy at any time, and it was apparent that the heavy operators are content to let the pikers and scalpers have a whirl at the dial.

In the produce market prices were easier all around. Third street is beginning to resume its wonted aspect of prosperity. Receipts were larger and of better quality.

PLUMS—Firm. Small red in 1-3-bu base, sell at 20g35c; near-by and home-grown at 25g55c per la-bu, and 85g55c per la-bu, basket for damsons, GRAPES—Arkanass receipts seiling at 40g55c for Moore's early and at 75c951 for Delaware's concord in 8-lb, baskets 25g35c; home-grown 40g55c for la-bu, basket for Moore's early and concords. r hear-by.
